By the end of the unit I should know...

- How firefighters, doctors, dentists, nurses and lifeguards help us
- I know how to keep myself safe in water.
- I know when there is an emergency, I should call 999. I know what to tell them so they will be able to help me
- I will understand the importance of recycling and how I can do my part for the community

Key knowledge/facts

- People around us have lots of different jobs that help us in a range of ways. Some people help us at home, school and in the community such as postal workers and teachers. There are people who help to keep us safe, healthy and well such as doctors, nurses, dentists, police officers, firefighters and paramedics.
- An emergency is when something unexpected happens and it needs action right away. For example, if there is a fire and we need someone to put it out, or if someone breaks a bone.
- 999 is the special number you need to call for the emergency services. These are the police, firefighters and an ambulance. They have special vehicles, clothes and tools to help them
