

Which one

Lay out the selection of pictures in this pack which each have three phonemes.

Look at the objects with the children to make sure they recognise each one.

Use a sound-talking toy and ask the children to listen carefully as it names one of the objects in sound talk eg. l-ea-f.

Ask the children to help the sound toy put the sounds together to say the word. The children can then sound talk the word themselves, leaving a short gap between each sound.
